

MANOJ SINGH MEHTA

Angular Developer | Web Technologies | Solution Development | UI Implementation

+91-8198896310 @ manojmehta6996@gmail.com NCR

EXPERIENCE

Angular Senior Developer [Kia Workspace]

Tata Technologies

09/2024 - Present Chennai

Kia India is rapidly growing player in the Indian automotive market.

- Design and oversee the implementation of the microfrontend architecture
- Define standards for communication between microfrontends
- Guide the development team in best practices for Angular
- Make critical technical decisions regarding framework usage, libraries, and tools
- Implement strategies to optimize loading times and runtime performance of microfrontends
- Work closely with backend teams to ensure proper API integration
- Ensure proper authentication and authorization mechanisms across microfrontends

Angular Senior Developer [Glovis Autobel]]

Tata Technologies

12/2023 - 09/2024 Gurugram

Autobell is a used car service platform developed by Hyundai Glovis.

- Working with a Dealer Management system for Client's Logistics and Auction department.
- Ended up writing the integration features for Drop-I and conducted mentoring of teammates.
- Responsible for initiating, planning, constructing, executing, monitoring, and controlling Web applications.
- Worked closely with team leads, business analysts, UX designers, and QA teams for UI implementations.
- Implemented lazy loading module to reduce page load time and improve performance.
- Collaborated with a team using Git/GitHub and an Agile workflow.
- Created reusable modules and components in Angular.
- Used RxJS library for asynchronous API call-making.
- Implemented JWT token-based authentication for the REST API.
- Developed component interactions using Input, Output, and view child decorators.

Angular Developer [D2C Hyundai]

Tata Technologies

07/2022 - 11/2023 Gurugram

Hyundai Motor India Limited (HMIL) is a significant player in the Indian automotive market.

- Created a D2C application for an Automobile client for their upcoming electric car.
- Managed the project from Front-end structure creation to production deployment.
- Coordinated with the web development team to design user interfaces.
- Designed, developed, tested, and deployed features in a timely manner.
- Solved complex challenges utilizing modern web development practices.
- Analyzed existing web applications to enhance functionality and improve user experience.
- Created multiple Reactive forms with validation in Angular.

SUMMARY

I am a dedicated Angular Developer with experience in web technologies including JavaScript, HTML, and CSS. My work primarily revolves around developing solutions in the automotive sector. I excel in creating efficient applications while collaborating with cross-functional teams. I am driven by continuous learning and growth, eager to solve complex challenges and improve user experiences.

KEY ACHIEVEMENTS

GLOVIS & KIA Workspace Solutions Delivery

Led the Architecture development and team management to timely deliver all the PRDs.

Timely Project Delivery

Led D2C app project with 100% on-time delivery and zero critical bugs in production.

Financial App Development

Developed financial app used by agents, streamlining customer interactions.

Team Mentorship

Mentored Frontend Teammates, enhancing team effectiveness and code quality.

LANGUAGES

English
Proficient

Hindi
Native

SKILLS

Angular 13+, ReactJS, Bootstrap, CSS, RxJs, Functional Programming, Asynchronous programming, Agile/Waterfall, Git, HTML, Java, JavaScript, JWT, REST, SCSS, SPA, NodeJs, Tailwind, PrimeNg

STRENGTHS

Web Solutions Expert

Exceptional ability to develop robust web solutions.

EXPERIENCE

Angular Developer

Accenture

 05/2019 - 07/2022

 Gurugram

Accenture India, a leading global professional services company.

- Developed a Financial Web app for bank agents to assist customers with banking features.
- Worked on Feature Modules in conjunction with reactive forms.
- Developed dynamic web pages using HTML5, CSS3/SCSS, TypeScript, JavaScript, Bootstrap, and Angular for various projects.
- Coordinated design efforts with the web development team.
- Designed, developed, tested, and deployed features in a timely manner.
- Utilized modern web development processes to solve complex challenges.

EDUCATION

Bachelors in Computer Applications

Lovely Professional University

 07/2016 - 06/2018

 Punjab, India

GPA

8.88 / 10

Diploma in Mechanical Engineering

Lovely Professional University

 08/2013 - 06/2016

 Punjab, India

GPA

9.33 / 10

STRENGTHS

Passionately Curious

I am always ready to learn new things to grow.

Performance Optimization

Ability to optimize page load times, reduce render-blocking resources, and implement lazy loading.

Cross-Functional Collaboration

Excel at bridging gaps between teams (backend, design, product) translating technical requirements, and fostering alignment toward shared objectives.
